

DATABASE

Creating a mysql or mariadb database on Ubuntu Server 22.04

DBname - ourdb

Username - user1

DBpasswd - mypasswd1

install database and user manually in

mysql

#create database

```
mysql-cmd> CREATE DATABASE ourdb;
```

db name -

ourdb

#create user for database

```
mysql-cmd> CREATE USER user1@localhost IDENTIFIED BY  
'mypasswd1';
```

db username -

user1

db passwd -

mypasswd1

#assign required privileges

```
mysql-cmd> GRANT ALL PRIVILEGES on ourdb.* to user1@localhost;
```
